Requesting Access

Arizona College Connect is an innovative FAFSA database that provides authorized high school and district personnel with their student-level FAFSA data.

This innovative FAFSA tool is powered by the Arizona Board of Regents and made possible through funding from Helios Education Foundation and a data partnership with the Arizona Department of Education. In addition to FAFSA completion data, the tool also provides high school educators access to FAFSA resources and information to support students.

Enroll your high school or district.

High school principals need to sign a data-sharing agreement. If your school already has an agreement you can skip this step. View the schools with a data sharing agreement here.
